

List of required supplies for entry into Grades 9–14

For students from 9th to 14th grade, the “books and school supplies” fee included in the tuition covers textbooks and digital resources for day students (including e-books). Students are required to bring their own school supplies.

An art kit will be charged separately for new students in 9th and 10th grade, as well as for those enrolled in art classes from 11th grade. A specific calculator will also be provided and invoiced, depending on the curriculum taken.

Students from 9th to 14th grade are required to come to school with their own laptop. Apple products are recommended for better compatibility with school resources. Please refer to the “Bring Your Own Device – BYOD” document for more information.
