of students say
they are happy
at school.

The British School of Guangzhou is ambitious for our students, delivering academic success in an environment that encourages a lifelong love of learning. This annual survey was offered to all students attending the school aged from 11 to 18 years. Over 90% of those eligible took part, with opinions provided from children representing over 50 different nationalities. Our next step is to ensure effective groups of school and student leaders, teachers, and administrative staff review the results as they continue with their aim to provide the best possible learning environment for international students living in Guangzhou.
