N.E.S.T (Nurturing, Empathic, Support Team)

Provides an "anchor" of social and emotional support for every single student by fostering deep, meaningful, and authentic relationships with a N.E.S.T counselor and fellow students. Our curriculum provides students with the opportunity to develop SEL skills and a sense of belonging and purpose within the school. Life skills are also taught, and friendly competitions among the grade levels develop collaboration skills.

ARTS ACADEMY

Arts Academy students train with professionals from our diverse faculty and staff to guest artists from top arts organizations. We offer pathways in visual art, dance, music, media arts, theatre, and interdisciplinary arts. In addition to their academic schedule, students hone their skills and develop their unique artistic voice through their core arts classes (12 credits) and afterschool performances, productions, and competitions.

LIGHTHOUSE POINT ACADEMY (LPA) PROGRAM

The Lighthouse Point Academy (LPA) Program has been carefully designed to present the rigorous NBPS curriculum to students of average to gifted intelligence who have been diagnosed with mild-to-moderate learning differences. LPA provides students with teachers who are subject area experts that are also uniquely prepared to provide differentiated instruction in supportive learning environments. LPA students enroll in core curricular classes that incorporate smaller teacher-to-student ratios that more effectively accommodate and guide students with varied learning styles. LPA emphasizes the metacognitive processes that create more personalized learning, as well as curricular content. Simultaneously, LPA shepherds students as they develop their own executive skills, self-awareness, and learning strategies. The goal of LPA is to encourage students to accentuate their strengths and address their learning needs as they grow to be caring, responsible, and capable adults and college students.

LEARN TO START PROGRAM / ENTREPRENEURIAL STUDIES

The Learn to Start program drives learners to answer the three fundamental questions that every individual needs to be capable and competent in answering: Who are you? What can you do? How do you prove it? The curriculum guides learners to continue to investigate their answers to these questions by taking advantage of opportunities to take action, take risks, experience failure, and learn from those experiences. Answering these questions enables learners to achieve the three program outcomes of Empowerment, Wellness, and Performance. These outcomes are communicated through the learner's market-ready portfolio which makes transparent the learner's development as someone who acts independently and is aligned with the markets.
